## SUMMARY

Front-End Developer with over 3 years of professional experience working with React and Next.js. Proficient in modern front-end architectures, component-driven development, and the React ecosystem. Experienced in building production-ready applications with a focus on performance, scalability, and code quality, while collaborating effectively with cross-functional teams.

## EXPERIENCE

### Front-End Developer

#### Ivy Tech

February 2025 - Present, Tehran

- Developed and maintained a high-performance e-commerce storefront built on MedusaJS, using React, Next.js, TypeScript, Tailwind CSS, and React Query, supporting a catalog of ~100 products with a focus on performance, scalability, and maintainability.
- Implemented an admin panel to manage products and orders, streamlining internal workflows and reducing manual operational tasks.
- Established end-to-end testing for critical user flows, including authentication and checkout, using Playwright integrated with GitHub Actions, enabling automated CI test runs and reducing production regressions by ~30%.

### Front-End Developer

#### Aress Fdp

September 2024 - September 2025, Tehran

- Collaborated with stakeholders to translate business requirements into scalable front-end solutions.
- Established a framework for continuous integration that automated testing processes for critical user flows, increasing test coverage by 50%, and providing developers with immediate feedback on code changes.
- Developed product pages using Next.js App Router, improving page load time by **25%** and supporting scalable data fetching for users via React Query caching.

### Front-End Developer

#### Freelancer

March 2024 - August 2025, Tehran

- Developed and maintained an e-commerce platform and admin panel using Next.js PagesRouter, focusing on scalability and long-term maintainability.
- Implemented pixel-perfect UI based on design specifications, ensuring high visual accuracy and consistency across devices and browsers.
- Orchestrated front-end enhancements by refining Core Web Vitals, achieving a 30% reduction in First Contentful Paint and a 0.10 decrease in Cumulative Layout Shift across key pages.

## SKILLS

HTML5, CSS3 - Tailwind CSS - Version control(Git) - JavaScript/ES6+ - React - Next.js - Typescript - Redux - React query - Storybook - Jest - Playwright

Problem Solving - Time management - Collaboration - Adaptability - Attention to Detail

## EDUCATION

### Masters in computer engineering

Azad university at Tehran • Tehran • 2025
